

ARTICULATION AGREEMENT
between
INDIANA UNIVERSITY PURDUE UNIVERSITY INDIANAPOLIS
AND IVY TECH COMMUNITY COLLEGE OF INDIANA – COLUMBUS

for the following program:

ENVIRONMENTAL DESIGN
(INTERIOR DESIGN) (A.S.)
Into the
INTERIOR DESIGN TECHNOLOGY (B.S.)

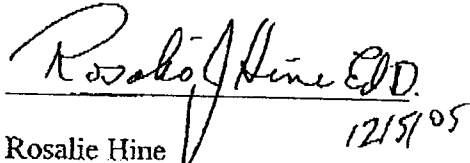

The purpose of this Articulation Agreement is to provide a framework for Ivy Tech Community College, Columbus students to continue their formal education. These students have indicated that Indiana University Purdue University Indianapolis (IUPUI) is their selection for continuing their education in order to complete their requirements for a baccalaureate degree program.

To ensure a smooth transition to the proposed baccalaureate degree program at IUPUI, the faculty of both institutions have developed the attached listing of course equivalencies approved for transfer beginning with the Spring semester of 2006. The course listing is attached and identified as Part I. Part I identifies each course in the Ivy Tech Community College – Columbus syllabus and exactly how that course will appear on the students official IUPUI transcript upon completion of the transfer. To ensure consistency and accuracy, these documents must be periodically reviewed by the representatives from both institutions to communicate and update information regarding curriculum and textbooks. A grade of "C" or above must be earned in a course in order to obtain credit toward the baccalaureate degree.

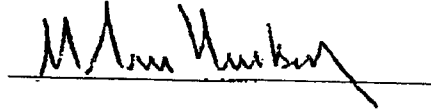

Any course taken prior to Spring 2006 will be evaluated by faculty from IUPUI in order to determine the transferability of the course work. This Articulation Agreement, including any modifications, may be reviewed by either institution upon request. *While all parties to his agreement understand its purpose is to maximize opportunities for individual students, they also recognize that limits may be placed on courses accepted under provisions of this agreement should the student subsequently decide to change to another program other than that covered by this agreement.*

Ivy Tech Community College
Columbus
