

Campus Center Opening

January 07, 2008

Check it out with James from the Campus Center office

Duration: 1:19

Transcript

Hi. Welcome to the Campus Center. My name is James. I'm a Senior at IUPUI and I'm a psychology major. I now work at the Campus Center and it is an amazing building. You guys are going to love it. Right now, we have Mondo Subs which is now open, and we have a convenience store called Outtakes, and we also have the Barnes and Noble bookstore which is two stories and it is great.

I'm standing in one of meeting rooms. We have over 14 in the Campus Center that you can choose from. Any organization or any department can book one of these. You just have to go through our Events Services Assistants. This is a room and it seats 30, has a great view. So check it out!

We are now standing in "the Cube". This is three times more space for organizations than we had in the basement of University College. If you want one of these spaces, just go online to our campus website, look for Campus Center, and find the form and fill it out.

We have tons of chairs that you can sit at. Just lounge, have fun, study. We're also going to have a game room, so you can actually go in. It's going to be secluded so you can have fun.

This place is huge! Check it out.
