

The Office of Assessment and Planning helps the functional units in the Division of Student Life to gauge the success of their programs, services, and facilities by gathering a variety of evidence and making recommendations for ongoing improvement.

This site provides access to a variety of these data sources used for making decisions, and it offers a view into our plans for the future. In addition, it provides a resource for those who work in the Division on how to gather data and use them for decision-making purposes.

Services

- Development of data-collection tools
- [Strategic planning](#)
- [Department consulting](#)
- Periodic and annual reporting
- Support for external program reviews
- Education on issues related to assessment and evaluation
